European School Education Platform

European School Education Platform è il luogo di incontro per tutti i portatori di interesse del settore dell' **istruzione scolastica**: personale scolastico, ricercatori, decisori politici e altri professionisti e interessa tutti i livelli dell'istruzione, dall'educazione e cura della prima infanzia alla scuola primaria e secondaria, compresa l'istruzione e la formazione professionale iniziale. La piattaforma ospita anche eTwinning, la comunità delle scuole in Europa.

Benvenuti in European School Education Platform, la nuova casa di eTwinning.

Questa prima versione della piattaforma fornisce agli eTwinners i principali servizi per trovare partner e sviluppare progetti. Nei prossimi mesi saranno disponibili ulteriori funzionalità, tra cui tutti i contenuti di School Education Gateway. Nel frattempo, sia [eTwinning](#) che [School Education Gateway](#) rimarranno temporaneamente disponibili online.

Evviva! Finalmente abbiamo i nostri partners

Evitare progetti con moltissimi partners
la gestione diventa difficile
bastano 4-5 persone per lavorare bene

È giunto il momento di creare il progetto sulla piattaforma

5. Key competences

Select the key competences that define this project.

Key competences *

Select one or more options

6. Aims *

Try to be specific, particularly in terms of competences and skills you hope your pupils will gain through this project. Refrain from stating too abstract concepts such as "European dimension of education" or "Intercultural communication".

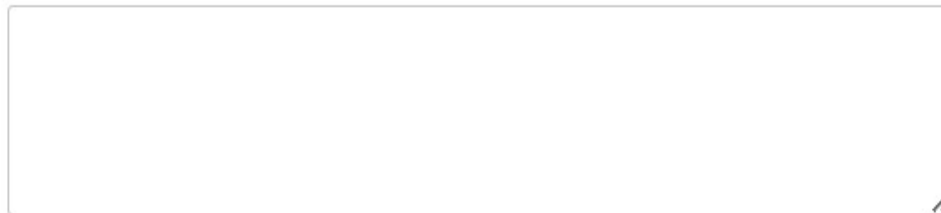

7. Work process *

State how you intend to work with your partner schools and how responsibilities are shared. Give an approximate calendar of activities, state how frequently you will work with your partner; indicate how you intend to involve your pupils; if you intend to create teams of pupils of different schools, and other relevant information.

A large, empty rectangular text area with a thin border and a small icon in the bottom right corner.

8. Expected results *

Indicate here if you are planning a final product such as a public TwinSpace or other resources. You might envisage instead the improvement of a school practice, or new knowledge.
